

# Transportation Update

February 9, 2023

ACPS is continuing to experience a shortage of drivers. The purpose of this monthly update is to inform the School Board of the latest information about staffing, ridership and on-time arrival data.

## Ridership Update

	Students Registered for Transportation*	Average Daily Ridership
Week of 8/29	10,023	-
Week of 9/12	9,974	6,154 AM / 5,766 PM
Week of 10/3	9,884	5,892 AM / 5,607 PM
Week of 10/17	9,743	5,959 AM / 5,735 PM
Week of 10/31	9,728	6,054 AM / 5,901PM
Week of 11/28	9,625	5,690 AM / 5,806 PM
Week of 01/03**	9,678	5,949 AM / 5763 PM
Week of 01/17	9,558	5334 AM / 5612 PM
Week of 01/30**	9,562	5861 AM / 5741 PM

\*Historically, registration is higher than ridership so routing takes this into account when planning routes.

\*\*Daily ridership is an average of the data year to date. Daily counts were not conducted this week since ridership counts have not fluctuated significantly.

\*If a vacant route does not have a double back the route is being covered by another method. Coverage plans vary based on the length and density of the route and include a temporary driver (i.e. VMF mechanic, permanent sub), the route is split and absorbed by other routes, or the route is covered by an existing driver in some manner. In some circumstances, the route is covered by a different driver, but the driver's original route is modified to accommodate. Additional hubs are created in some instances.

Example for Monticello Open Route Bus #3: Driver of bus 43 takes bus 3 students home and meets up with bus 221 at Red Hill Elementary. Bus 221 takes their students and 43 students from Monticello and Walton to meet with 43 at Red Hill while delivering 221 students home on the way to RHE. 221 gives 43 students to bus 43 to take home.

\*\*Schools may have additional regular double backs or impacts due to a long-term absence of a driver.

## Impacted Students

The following list includes double back buses or buses impacted by a double back bus for 3 or more days last week. It includes 6 buses as compared to 16 buses on the last update. 8 additional routes were on a double back 1-2 days during the week. Planned ridership is how many students are on the manifest, it does not reflect actual ridership.
